

PRESS RELEASE

Visit of a 24-member delegation of Pharmaceutical Exporters from India

A 24-member delegation of Indian pharmaceutical manufacturers is in Peru from 31 July to 3 August 2013. The delegation consists of 24 companies dealing with a wide range of pharmaceutical products, nutritional supplements, specialty cosmetics and machinery. Some of the companies are among top global leaders in their product line.

The Embassy of India, in collaboration with the Lima Chamber of Commerce, organized a Buyer-Seller Meet for the delegation on 1 August at Hotel Los Delfines in Lima. About 80 Peruvian companies participated. The meeting generated strong interest among Peruvian companies for the products produced and exported from India. It is expected that substantial business deals should follow as a result.

The delegation will also be meeting officials of Direccion de Medicamentos Insumos y Drogas (DIGEMID) and President of Health Committee of Lima Chamber of Commerce (COMSALUD) to discuss measures to strengthen relations between the two countries in the field of pharmaceuticals.
