

India - Trinidad and Tobago Relations

Historical Perspective: Relationship between India and Trinidad & Tobago goes back to 30 May 1845 when the first ship 'Fatel Razack' carrying 225 Indian indentured workers reached the shores of Trinidad, then a British colony. Their numbers increased with subsequent arrival of more ships from India. The descendents of those indentured workers, now in their fifth generation, form nearly 42% of the total population constituting an integral part of the economic, political and social fabric of the country. The presence of a substantial population of Indian origin (the largest ethnic group) has contributed immensely to close bilateral relations between the two countries.
